

The

NHS

Is being broken apart...

Enough is enough. Join us and stop this.

DOCTORS FOR THE **NHS**

SERVICE NOT PROFIT

Why we act

- We believe NHS services are being **marketised**, with over 25 years of legislation aimed at creating a 'market'. That **repeated re-organisations** have taken the NHS from its publicly funded, provided, and accountable roots. That **all** sections of the NHS are now under **unparalleled pressure** which is affecting services, training, and medical education alike. And that the NHS **is** being **dismantled** and could not be re-created.
- We believe in service and co-operation rather than market forces and competition.
- We believe that the NHS is the world's greatest example of a society wanting to provide care for the sick, for the whole world to see.

What we do

- We are **nationwide**, with members from all branches of medicine.
- We are **lobbying to restore the NHS** as a publicly funded, provided and accountable service, including the repeal of the Health and Social Care Act.
- We **meet with key decision makers and opinion formers** to offer the views of doctors whose priority is the interest of the public.
- We **present information and arguments to the public** through the media.
- We **highlight current problems** faced by the NHS and **suggest solutions**.
- We work with the organisations we helped create: **Keep Our NHS Public** and the **NHS Federation**.
- We **work with all other groups** who share our aims.

The NHS provides comprehensive clinical cover and health protection for everyone while removing the fear that treatment cannot be afforded.

BUT THE NHS IS UNDER THREAT: Join us to help remove that threat
